Work Experience:

Teaching experience in Qurtuba University of Science and Information Technology Peshawar from 2022 till date.

Research Experience:

1. Research experience in formulation of Novel Drug Delivery Systems including nano particles, nano micelles, microneedles and orodispersible tablets.
2. Formulation of gels.

Publications

1. Transdermal Delivery of Glimepiride: A Novel Approach Using Nanomicelle-Embedded Microneedles
2. Hybrid dissolving microneedle-mediated delivery of ibuprofen: Solubilization, fabrication, and characterization
3. Innovative Self Nano-Emulsifying Drug Delivery Systems for Peptic Ulcer Therapy: A Review
4. Self-assembled latanoprost loaded soluplus nanomicelles as an ophthalmic drug delivery system for the management of glaucoma
5. Tamoxifen-Loaded Eudragit Nanoparticles: Quality by Design Approach for Optimization of Nanoparticles as Delivery System
6. Comparative pharmacokinetic evaluation of glimepiride orodispersable and conventional tablets in rabbits

Clinical internship:

Lady Reading Hospital; Cardiology ward.
Participation in round, case history collection and data analysis.

Industrial internship:

Rock Pharmaceuticals, Risalpur.
